

Naloxone Kits (Nasal Spray)

Overdose Prevention

Naloxone is a medication that blocks the effects of opioid overdose. Naloxone kits are given to anyone who uses opioid drugs; or to family and friends who want to prevent the overdose of a loved one.

You will receive education about how to prevent drug overdose, the signs of an overdose, what to do when you see someone overdosing. You will also receive training in administering Naloxone Nasal Spray.

*The training and kits are courtesy of the Brant County Health Unit.
Nya weh (Thank-you) for supporting our community.*

To receive your free Naloxone Kit, visit us at:
Ohsweken Public Health Office
Gane Yohs Health Centre
1769 Chiefswood Road, Ohsweken

Thursday January 17, 2019

1:00 pm – 4:00 pm

No Health Card Required

No Charge – FREE

For more information please call the Ohsweken Public Health Office at 519-445-2672.

You can also get free naloxone kits and training at Ohsweken Pharmasave and many pharmacies in Brant and Haldimand County (with a valid Health Card). To find a pharmacy near you, phone ConnexOntario helpline: 1-800-565-8603. Anyone can pick up kits from the pharmacy (friends and family of people who use opioid drugs, service providers).
